

Only the best become Inolivia

Inolivia is an estate driven manufacturer in Greece that presents **Mediterranean Life** delicacies around the globe. Starting from Banavas family Estate in **Halkidiki Greece**, it offers a basket of healthy products with recipes stemming from the East part of the Mediterranean Sea. This basically includes Greek olives in various stuffings and marinates from Halkidiki and Kalamata, marinated garlic cloves, artichoke hearts, green peppers, sundried tomatoes and traditional meze salads of Greek origin: smoked eggplant dips, pepper spreads, olive Pâté and flavored hummus with harissa, tomato or red pepper. Inolivia 's product line is primarily driven by taste and is of exceptional quality, compliant to international food standards; an ideal combination to support the **Mediterranean-Life** diet.

"We are fortunate enough to be born in the land of Halkidiki. Where our ancestors planted the olive tree; the tree of the Greeks. The first trunks of this sacred tree were brought from the Holy Mountain (Mount Athos), and generated deep roots; as profound and as solid as our history. As a duty to our ancestors, we made the promise to allow this land to flourish."

Exporting "Mediterranean Life" through the excellent food products that Greece is famed for.
